

2011 AVICENNA PRODUCTS PRICE GUIDE

The Avicenna Suite of laser are the most powerful and advanced laser platforms in the world. They range in power output from 10—60 watts, operate at a 980nm wavelength and can be pulsed or operated as true continuous wave lasers to provide optimal stimulation.

Outcomes are increased proportionately as power output increases. All units can be pre-programmed with custom treatment protocols for pain relief, inflammation reduction and tissue healing.

All lasers come with a heavy duty medical grade travel case, and carry a two (2) year warranty program. included in the price.
